EDUCATION

University of Santo Tomas	Manila, Philippines
Bachelor of Science in Computer Science with Specialization in Data Science	June 2026
Dean's Lister	

EXPERIENCE

Amdocs	Taguig, Philippines
Software Engineer Intern	January 2026 – April 2026

- Developed end-to-end IAMOps (Identity and Access Management Operations) automations (User Creation, User Deactivation, User Reactivation, User Queue Modification) using Python and Playwright, covering ServiceNow ticket parsing, CRM validation, SFTP upload, and API-based outcome verification across four production workflows.
- Contributed to production-level DevOps workflows from onboarding, working directly on live systems used by the IAMOPS operations team alongside engineers.

SMMCO Enterprise	Tarlac, Philippines
Part-Time Encoder	June 2022 – July 2022

- Monitored and accurately encoded daily egg production data from 50,000+ laying hens across multiple facilities using manual logs and Microsoft Excel spreadsheets.
- Collaborated with farm supervisors to reconcile discrepancies in production counts and ensure timely submission of accurate reports.

LEADERSHIP AND ACTIVITIES

Technovation Society (University of Santo Tomas)	Manila, Philippines
Director for UI/UX Department	October 2025 – May 2026

- Led team of 8+ designers creating user-centered prototypes and wireframes using Figma while establishing UI/UX standards and component libraries.
- Coordinate closely with developers, project managers, and stakeholder teams to bridge the gap between design vision and technical implementation, ensuring seamless handoff and consistent user experiences across web and mobile platforms.
- Conduct regular design reviews and provide constructive feedback to team members, fostering a culture of continuous improvement and creative excellence.

TomasinoWeb (University of Santo Tomas)	Manila, Philippines
UI/UX Designer	October 2024 – May 2026

- Collaborated with the Web Technologies Department to conceptualize, design, and refine website interfaces for official university media platforms, reaching an audience of 20,000+ students and faculty members.
- Developed high-fidelity mockup and interactive prototypes with responsive breakpoints, enabling stakeholders to visualize user flows before development.

Software Engineering Course (University of Santo Tomas)	Manila, Philippines
Project Manager & Full-Stack Support	August 2024 – May 2025

- Led cross-functional development team of 6 through the full software development lifecycle of a veterinary clinic record management system, managing product backlog via Notion, conducting code reviews, and delegating tasks based on individual strengths.

- Built full-stack application using React, Node.js/Express, and MySQL, featuring patient records, medical history tracking, and role-based access control, contributing across both frontend and backend development.
- Implemented Agile methodologies via Jira including sprint planning, daily standups, and retrospectives to maintain project velocity and team alignment throughout the development cycle.

Computer Science Society (University of Santo Tomas)

Manila, Philippines

Creatives Member

October 2022 – May 2025

- Designed digital publication materials including event posters and promotional banners using Canva for organizational events.
- Managed multiple concurrent design projects under tight deadlines, ensuring timely delivery of materials for time-sensitive campaigns and announcements.

TOMCAT (University of Santo Tomas)

Manila, Philippines

Creatives Member

October 2023 – May 2024

- Contributed to the production of video content pieces using Adobe Premiere Pro for academic campaigns and event coverage.
- Delivered final video outputs on schedule, adhering to brand guidelines and platform-specific specifications (YouTube, Facebook, Instagram).

PROJECTS

Image-Based Air Quality Forecasting Utilizing a Efficient-CapsNet-LSTM-LightGBM Hybrid Model: Exploiting Temporal and Spatial Features from High-Resolution Images and Environmental Data (Undergraduate Thesis)

- Designed and implemented a hybrid deep learning architecture combining Efficient CapsNet, LSTM, and LightGBM for air quality forecasting using multimodal data.
- Engineered feature extraction using Efficient CapsNet for spatial pattern recognition and LSTM for temporal dependencies, with LightGBM ensemble for final predictions.
- Implemented hyperparameter tuning using time-series cross-validation to optimize hybrid model performance.
- Evaluated model using multiple metrics, with statistical analysis and performance visualizations, demonstrating predictive accuracy for real-world air quality forecasting applications.

Technovation Society Main Website

- Led end-to-end UI/UX design from wireframes to high-fidelity prototypes in Figma for UST Technovation Society's official main website, ensuring a consistent and polished user experience aligned with the organization's brand.
- Built and maintained a Figma design system from scratch, including component libraries, typography, color tokens, and spacing guidelines, used as the single source of truth across all pages of the organization's website.
- Directed a team of 9 designers as UI/UX Director, delegating tasks, maintaining design consistency, and overseeing deliverables across the UI/UX department of UST's Technovation Society.

Kho Veterinary Clinic Record Management System

- Built a full-stack veterinary clinic record management system using React, Node.js/Express, and MySQL, featuring patient records, medical history tracking, and role-based access control.
- Designed and developed key modules end-to-end, contributing across both frontend and backend while coordinating a cross-functional team of 6 through the full software development lifecycle.

SKILLS

Technical:

- Web Development: Java, HTML, CSS, Dart, Flutter, React

- Data Science & Analytics: Pandas, NumPy, Matplotlib, Seaborn, SQL, Excel, Tableau, SAS Viya, Jupyter Notebook
- Machine Learning: Python, PyTorch, TensorFlow, Keras, scikit-learn, Hugging Face Transformers
- Creative: Figma, Canva, Adobe Premiere Pro

Soft Skills:

- Attention to detail and accuracy
- Strong planning and organizational abilities
- Ability to manage concurrent deadlines
- Ambitious and eager to learn
